

**BUSINESS AND NONINSTRUCTIONAL OPERATIONS****School Breakfast and Lunch Programs: Generally****A. Food Service--Purpose and Objective**

The Stafford County School Board will attempt to provide facilities for serving breakfast and lunch to all students who remain at school and for employees of the school division. Cafeteria food shall be sold to students and others at a price which will pay the cost maintaining the cafeteria.

Breakfasts and lunches shall constitute balanced meals, at moderate cost to the student.

The cost of meals to school employees shall be higher than the cost to students and shall reflect the actual cost to the division of preparing and serving said meals.

**B. Food Service--School Board**

The School Board is responsible for any school breakfast and lunch programs operated on school property. The Board shall fix the price of meals, approve all personnel involved, and determine the adequacy, safety, and conformation to all applicable legal standards and statues, of all facilities apparatus, and procedures used.

The Board directs the administration to subscribe to the National School Lunch & Breakfast Programs which provides balanced meals. In order to participate, the superintendent is authorized to certify that the school division complies with State and Federal regulations.

**C. Milk Purchases**

Milk shall be purchased as the result of competitive bids or quotations. The contract awarded shall be for one year, provided satisfactory service is rendered.

**D. Sale of Food Items**

The sale of food items in the school shall conform to regulations as established by federal, state, and local governing bodies.

Adopted by School Board: January 22, 1991
